

**Livestock Processors Participating  
in Projects**

(Updated: January 2003)

**All Currently Approved Substitution Programs are  
Extended Through June 2005**

| <b>Processor</b>        | <b>Substitution<br/>Agreement</b> | <b>PCCP/GR <sup>1</sup></b> | <b>Demo/Pilot <sup>2</sup></b> |
|-------------------------|-----------------------------------|-----------------------------|--------------------------------|
| Don Lee Farms           | Approved                          |                             | demo                           |
| Gorges/Quick to Fix     | Approved                          |                             | demo                           |
| H & H Meats             | Approved                          | PCCP                        | pilot/demo                     |
| JTM Foods               | Approved                          |                             | demo                           |
| MCI Foods               | Approved                          |                             | demo                           |
| Landis Meats            | Approved                          |                             | demo                           |
| John Soules             | Not Approved                      | PCCP                        | pilot                          |
| Pierre Foods            | Approved                          | PCCP/GR                     | pilot/demo                     |
| Advance Food<br>Company | Approved                          |                             | demo                           |

<sup>1</sup> PCCP/GR = Process Control Certification / Guaranteed Return applies to all States

<sup>2</sup> Demonstration Projects began as a part of the Substitution Waiver Authority

Pilot Projects began as a part of the FD-2000 Program Improvement Initiatives
